

# db clay is Giving Away Their Secrets

FOR IMMEDIATE RELEASE

08.01.07

*After 9 years of hand making thousands of Duct Tape Wallets, db clay is proudly giving away all of their secrets as they debut "A complete do-it-yourself Duct Tape Wallet Kit" - introducing myDuctbills!*

33,000 Duct Tape Wallets and countless hours of hand made practice have taught the db clay boys all there is to know about making a Duct Tape Wallet. After 9 years of improving their process and knowledge, db clay is now happily giving away their wallet making secrets as they debut a comprehensive 'Do-it-Yourself Kit' that provides more than just instructions: Great for everyone, the myDuctbills Kit is offered in a variety of wallet colors and provides all of the pre-cut Duct Tape pieces you'll need to make your own Duct Tape Wallet- perfect every time. The kit also includes 6 bonus color swatches so you can create and customize your own Duct Tape Wallet design. myDuctbills is a fun activity and gift in one for under twenty bucks.

"Everyone is making their own Duct Tape Wallets these days and we are proud of what we started. Since launch, we've transitioned our Ductbills products into a global designer wallet brand (db clay). myDuctbills is our chance to celebrate our roots and tell our story by encouraging people to now make their own wallet," explains db clay Founder Garrett Croft Stenson.

Please visit the all new Ductbills Blog for a nostalgic look at the evolution of db clay and for more information on the inspiration behind the innovative myDuctbills Kit. Enjoy!

db clay is requesting coverage on this innovative product.
